That Louth County Council take into consideration that many people do not want their homes made a Protected Structure. They do not want restrictions which bureaucracy and the limitations of a Protected Structure which it places on them. They question what they are being protected from when they can be legally forced to carry out works, at a very high cost, to the specification of Louth County Council in what is effectively their own home. They also have to pay considerably higher insurance premiums. This is sometimes double the amount they pay before being made a protected structure. There are many people with homes which are Protected Structures who want them delisted and procedures should be put in place to facilitate this

What action has Louth County Council / Irish Water taken with regards to the raw sewerage leak on the Marsh Road / Mornington Road on Sunday 2nd November and what is being done about the foul odour coming from the treatment plant on a regular basis. This is a Health and Safety concern for residents of the area and also depending on the prevailing winds it affects many other areas. When can we expect a report that these serious ongoing issues are being addressed?
