The road is a shared entrance between Fountain Hill and Mell School off the main road R168. There is a significant increase in traffic along this road at peak school times with motorists using the road entering Fountain Hill as a turning circle in order to exit back out to the R168"

	"Requesting Louth County Council carry out an inspection of the King William Glen Junction with the Drogheda Slane Raload and the Obelisk Bridge Road to include line of sight, vegetation around the junction which may limit same and road surfaces within a 50yard radius of the junction. Currently a severe difference in road surface level exists west of the junction which is causing traffic travelling from Drogheda direction to Slane to travel into the wrong side of the road to avoid this dip."
