

## Reopening Dunleer Railway Station

Ronan Farrelly

Hello,

I wish to raise my objection to proposals reported in the media that Louth County Council has delisted the reopening of Dunleer Railway Station as an objective of the County Development Plan and has also removed a specific objective of a second station in Drogheda.

This makes no sense whatsoever and is extremely poor planning. Dunleer Station needs to reopen, it serves a large area of mid louth and would be used by very significant numbers of passengers.

Transport policy should be focussed on people using public transport and not all using their cars adding to congestion and the overall national output of carbon.

Please add my voice to the call for the reversal of Alteration 91. In addition could you extend the deadline on this and mention it on your Twitter and other social media platforms so that people are made aware.
