>

Hello,

I believe that reopening Dunleer Railway station would be of great benefit to the residents in the wider area of Haggardstown, Blackrock, Ardee, Castlebellingham, Kilsaran, Annagassan and Dunleer.

At a time when public transport is being put forward as part of environmentally friendly transport systems it is necessary to give the reopening of the station serious consideration.

In addition, the reopening would reduce the volume of traffic on the M1 motorway resulting in less traffic and reduced carbon emissions.

For your consideration, please.
