Sanitary Services

Schemes such as those in Carlingford, Dunleer and Baltray/Termonfeckin will greatly facilitate the orderly development of towns and villages within the county. There are also environmental considerations as, for example, previously, waste water from

Carlingford was discharged untreated into the Lough. In addition, the small schemes and rural water programmes have gone from strength to strength.

A list of projects over the period included the following main schemes:

Capital Schemes

Scheme Details	€	€	Date Completed
Blackrock / Heynestown Sewerage Scheme - Stage 2	2,700,000	3,400,000	1994
Castlebellingham Sewerage Scheme	1,500,000	1,900,000	1990
