Ordered. That the County Treasurer do pay Thomas Brown the Sum of Nine Pounds Seven Shillings Stlg. being the amount expended on Carlingford Pier, as certified by the County Surveyor, said sum to be paid out of the receipts of said pier or harbour.

Resolved.—That our Solicitor be instructed to present a Petition to the House of Lords against the proposed Bill of the Dundalk Enniskillen and Derry Railway Company, so far as relates to the extension of their line to the Quays of Dundalk, crossing Barrack Street and Quay Street in said Town.

Resolved.—That no further steps be taken by our Solicitor towards opposing the extension of the Dundalk, Enniskillen and Derry Railway as directed by our resolution, than such as are necessary for having the Petition therein referred to, lodged in the proper office.

Resolved.—That we approve of the resolution passed at the County at Large Sessions, previous to the present Assizes, having reference to the constabulary station at Castletown, at present an extra charge upon our County.

That in our opinion should such station be necessary a re-distribution of the present Force of the County would provide for its wants.

That this our opinion be forwarded to his Excellency the Lord Lieutenant, with a request that a re-distribution of the present constabulary Force of the County be made to meet such requirements, so as to relieve the County from the extra cost of same.

M

GRAND JURY ORDERS AT SPRING ASSIZES, 1862.

The attention of the Grand Jury having been called to a recommendation contained in the report of the Lunacy Commissioners that an auxiliary Asylum should be erected in the County of Wicklow, at the cost of the Counties at present forming the Richmond District.

We the Grand Jury of the County of Louth, beg to protest in the strongest manner against our County being made chargeable for any extra expenditure for such purpose, as the accommodation to which we are at present entitled in the Richmond Asylum, would be amply sufficient for the wants of the County, if such accommodation were always available.

A deputation from the Town Commissioners of Dundalk, having waited upon the Grand Jury with reference to the advisability of building a Lunatic Asylum for our County in the Town of Dundalk, we direct our Secretary to lay the matter before each of the ensuing Baronial Sessions, with the view of obtaining their opinion upon the matter, and to lay such decisions before the Grand Jury at the Summer Assizes.

The Grand Jury have received and considered a Resolution passed by the Presentment Sessions of the Barony of Lower Dundalk, with reference to reducing the amount of assessment laid upon the County at each Spring Assizes, as the levying of same comes upon the Rate payers, at an inconvenient period of the year.

The Grand Jury are of opinion that upon the present occasion it is not in their power to transfer to the Summer Assizes the levy of a portion of the present Assessment without interfering with their engagement to provide for the three fourths of contracts exceeding the sum of £20, being advanced to contractors when levied, upon the certificate of the County Surveyor.

The Grand Jury would however suggest that as the Rate-payers of the County have the remedy in their own hands, they would for the future reserve their heavy contracts until the Summer Assizes of each year, which would have the effect of remedying the difficulty of which they so justly complain.

COUNTY SURVEYOR'S REPORT.

To the GRAND JURY of the County of Louth, assembled at
 SPRING ASSIZES, 1862.

GENTLEMEN,

I beg leave to glance at this Assizes generally over some of the circumstances connected with the cost of labor, the traffic on, and the extent of the roads repaired by Grand Jury Presentments for the last twenty years in this small but important County. The population of Louth in 1841 was 111,979 persons, in 1851 it was 90,815 and in 1861, 75,140, showing a decrease in the first ten years from 1841 to 1851, of 19 per cent; in the second ten years from 1851 to 1861, of 18 per cent; and a total decrease in the twenty years from 1841 to 1861, of 33 per cent, on the entire population. The number of males in 1841 was 54,651, in 1851, 44,310 and 1861, 36,847, showing a corresponding decrease of 19 per cent. in the first ten years, 17 per cent. in the second and 33 per cent. in the whole period of twenty years. These last rates of reduction for males almost correspond with those on the entire population. In dealing with the question of cost of labor, it must however be considered that the labor market is principally supplied from that class of the population in which the greatest or I may safely infer almost the entire reduction has taken place, and that the decrease in the total number of males must probably be taken at 60 per cent. amongst the hired laboring class. Judging alone from the rates contracted for with the County for broken stones, and their application for the repairs of roads twenty years ago, and now paid for the same work the increase in the value of road labor would be over three hundred per cent. The wages I have had to pay to laborers to make sure of them when wanted on the works lately in my hands, was thirteen to sixteen pence per day and sometimes higher, and although this may be higher than paid to agricultural labourers, unless during harvest. It is certainly seventy per cent. over what the like labor could be had for in 1841. Indeed if I were to judge from the prices appearing in the Warrants for the Spring and Summer of that year, the increase would be considerably greater; for broken stones were then heedlessly contracted for, at from three pence to twelve per cube yard, and they now cost three times the latter amount at least.

COUNTY SURVEYOR'S REPORT.

It is difficult to compare the amount of traffic on our roads at different periods without full data, which I find it impossible to get. In a County circumstanced as this is, crossed at every point by the traffic of the interior to the sea, and with at present fifty six per cent. of its surface under crops the traffic must be of the heaviest kind, but depending principally on the degrees of cultivation, the drawing of manures, the amount of produce and the exports and imports to and from the coast. Judging from these last, for the central Port, in the absence of any early agricultural returns, I find that the tonnage of Vessels to the Port of Dundalk was only 62,779 tons inwards and 45,406 outwards, in 1841, while in 1861 it amounted to 137,031 inwards, 96,583 tons outwards, making totals of 108,185 tons in 1841, and 233,614 tons in 1861, or an increase of nearly 120 per cent. while the customs for the same years were £20,091, and £51,871, being an increase of 250 per cent. I certainly do not over estimate when I infer from my own observations and these returns, taking one road with another, that the average traffic has increased fully 125 per cent. on our County roads within the last twenty years.

Taking into account the increase in the cost of labor and the increase in the general traffic here indicated. I must consider the following retrospect of the statistics of County works and their cost as very satisfactory. In 1832 the number of miles repaired and maintained was 172 at a cost of 18½ pence per perch, in 1833 the corresponding numbers were 181 miles at 14½ pence per perch; in 1834, the year of the introduction of County Surveyors, 168 miles at 19 pence per perch, in 1837, 222 miles at 12¾ pence; in 1841 403 miles at 7½ pence; in 1844, 471 miles at 9½ pence per perch; in 1847, the year of the famine 203 miles at 10½ pence; in 1851, 441 miles at 8½ pence; in 1855, 401 miles at 10¾ pence; in 1857, 368 miles, including some of the late turnpike roads, at 13 pence; in 1860, 517 miles at 14¾ pence; and in 1861, 545 miles at 14½ pence; since 1857 the cost of the turnpike roads added considerably to the average rate per perch, the traffic on most of them being of the heaviest kind, and their repairs averaging about 34 pence per perch. The average for other than turnpike roads is at present 11.94 pence per perch.

The following table gives the cost and extent of works in each Barony for the past year. The general table attached to this Report will give further details, showing the distribution of the Levy for the Spring and Summer Presentments.

COUNTY SURVEYOR'S REPORT.

COUNTY SURVEYOR'S REPORT.

There is an increase of twenty seven miles in the length of roads under repairs and maintenance over that of 1860, with a decrease of more than a halfpenny in the average rate per perch, and an increase of one penny in the £, on the Valuation.

It also appears from this summary that the highest average cost per perch is in the Barony of Drogheda, and the highest rate per £ on the Valuation in the Barony of Ferrard, the lowest rate perch in the Barony of Ardee, and the lowest rate per £ in the Barony of Drogheda altogether, the Barony of Ardee whose resources were most developed appears under the most favorable position.

The rate per £ collected for all works for Spring and Summer during the past year was, in

	<i>pence</i>	<i>pence</i>	<i>pence</i>
Drogheda.	4.2	2.5	.88

Upper Dundalk.	8.98	7.12	.88
Lower Dundalk.	9.35	4.99	.88

It appears from these figures that the Spring Levy was larger than the Summer one, in nearly the proportion of two to one for Drogheda, Louth and Lower Dundalk, the average rates of the excess for all, being as 7.62 to 5.37 nearly.

While on the subject of cost, I must quote a passage from my Report at Summer Assizes 1857, with reference to the tendency that existed about that year to raise the rates per perch for maintenance and repairs, it is as follows. "A tendency to add a few pence extra to the rates per perch for third or fourth class roads, has lately been shown

COUNTY SURVEYOR'S REPORT.

by some of the Cess Payers. I beg to state here that three pence per perch on 500 miles would amount to £2000, a year on the County at Large." In that year 1857, the average rate per perch went up to 13 pence, while omitting the turnpike roads, it does not now exceed 12 pence. Much of the reaction that took place then and after, arose on this question, in which the Contractors and the Cess Payers were against me, but I am happy to say that the Cess Payers see their way better now than they did then, and have acted at late road Sessions accordingly. Indeed when it is considered that more than six-sevenths of the cost of County works is for maintenance and repairs of roads alone, it will be perceived that a saving in the average cost per perch is the key to any reduction that can be permanently effected. Accordingly, as the crust of roads has increased in strength, I have gradually reduced the quantities of broken stones to what is required, for skilful maintenance alone. This I hope will develop a healthy competition amongst skilful road contractors and tend to have necessary repairs, cleanings, dressings and surface drainage made with judgement, when and where required and at the proper seasons.

At the late adjourned Road Sessions there was considerable competition for many of the contracts and comparatively only very few works remain un-contracted for. I must say, I do not like the sort of competition that sometimes take place when their is want of skill amongst the competitors, and a desire amongst old hands to come in and keep out new or better men. Skill is the great requirement needed in County contractors. It is very troublesome to find men without any knowledge of masonry proposing to build a bridge, as in No. 8 Barony of Ferrard, and merely guessing at the value from the amount of the presentment. Three years ago the only tender for this work, Mattock Bridge, was for a sum of £850; at the late Road Sessions there were five tenders for the same work varying from £420 to £597, although an extra was included since the first tender of £30.

Most of the roads, the maintenance of which was thrown into my office a few years ago have been within the last 18 months contracted for at rates, per perch, which were at first refused. I consider the power of maintaining roads from Assizes to Assizes, when there is no contractor, the most important regulative measure as yet placed in the hands of Grand Jury for the conservation of County works, it prevents the efforts of combination to raise the rates for repairs exorbitantly, preserves the surface and works executed by the Surveyor, cost for cost, become an ensample to contractors. Of the great extra labor these works have for the time thrown on me I do not complain,

COUNTY SURVEYOR'S REPORT.

but I have remonstrated at Spring 1858, Spring 1859, Summer 1859, and Summer 1861, and I do complain that payments should be made through my office. This office is purely one of works and the payments though connected with it should be in other hands. I am glad to find that the Chief Remembrancer in a letter shown to me on Monday last by the Secretary and of which I since received a copy has expressed the opinion that no payments ought to be made to a Surveyor but only to his order, or on his certificate. I hope therefore that you will take such steps at this Assizes to provide for making any payments required hereafter as shall seem in your judgement best.

A bill is before Parliament to levy tolls on Vessels entering the Harbour of Carlingford, the Pier in the Town of Carlingford being under your control, it is my duty to refer to this bill. In so far as the proposed work of deepening the bar for which the tolls are proposed to be levied, will admit Vessels at low water of more than 10 feet draught the depth at present at low water on the bar, there is no objection to the Schedule of tolls but that Vessels drawing less than this depth should be taxed for increasing it, and for Imperial purposes seems unreasonable. A bill is also before Parliament for the extension of the Dundalk and Enniskillen Railway over Barrack-street and Quay street in the Town of Dundalk. Experience has shown for some years past that the level crossing at the Windmill road is a great inconvenience owing to the continual shuntings that take place. This would be far greater in the Town, at Quay-street, and the diversion proposed from Barrack-street to remedy the inconvenience that would arise is very objectionable. I am of opinion it would be far better to carry the proposed extension to the east of the Barracks and the Town, instead of forming an obstruction to the traffic between the Quays and the Barracks, and through a thickly populated locality.

Under an order of the Grand Jury, I reported at Spring Assizes 1852, on the classification of the County roads. The roads were numbered and printed in each Barony, according to class in the Summer Book of 1853, and since, until lately, when the class numbers have been left out. I think this is a mistake. The numbers as I originally proposed could be printed as indices to the Secretaries number, or as affixes or prefixes at the beginning or end of the Presentment, without occupying extra space.

In my report of last Summer Assizes, I referred to the progress of the works of the bridge over the river Fane, south-west of Clermont, I then stated that from the limited funds, I had to risk resting the

COUNTY SURVEYOR'S REPORT.

foundations on a quick sand, since then the bridge has been satisfactorily completed with the exception of the caps of the Pilasters, in the getting of which I was twice disappointed by contractors. I believe this is the cheapest bridge yet constructed in any County on a skew plan, on such a foundation and under ten feet of tidal water. I did not undertake to finish this work within the Presentment of £400, as the bridge next above on the same river, cost £860, and the one next below £1200. However the bridge is now built, the deficient caps will soon be set, and the expenditure will not exceed the Presentment.

X An application for a new road to open the entrance into the Town and Quays of Dundalk, from the north and north-west is now to be certified. I consider the project a valuable one for the districts to be affected by it. X

The contract roads throughout the County notwithstanding a very wet season were, generally, fairly kept, and can bear favorable comparison with any others of the same traffic in any other place. There have been difficulties and hard work to effect this. I do not expect any relaxation from the work, but I am gratified to find it has not been thrown away.

I did not yet make any appointment for the vacant office of Assistant Surveyor. The responsibility is too great, and the salary too small to run any risk, more particularly when I recollect that one of the former Assistants was removed on my recommendation for incorrect returns, which on one or two contracts alone amounted to a sum equal to five times the amount of his salary.

The accounts of my Office will be submitted to the Committee to inquire into them as usual, when I shall have to submit some remarks on the works in progress. The expenditure since last Assizes was £878, and the amount still available on these works £257,

The application for new works are of the usual kind, and I shall report on them separately as they come before you.

I am Gentlemen,

Your obedient Servant,

N

JOHN NEVILLE.

A communication having been received from Thomas Lee Norman, Esq. one of the County members of the Board of the Richmond Dis-

GRAND JURY ORDERS AT SUMMER ASSIZES, 1862.

trict Lunatic Asylum, expressing his desire to retire from the Board, as his health unfits him to perform the duty.

The Grand Jury beg leave to bring the matter under the notice of His Excellency the Lord Lieutenant, recommending to His Excellency the acceptance of Mr. Norman's resignation and the appointment of Francis Donagh, Esq. to succeed him on the Board.

Resolved.—That in the opinion of this Grand Jury, the difficulty arising in the deficient accommodation of the Richmond District Lunatic Asylum, is caused by the great pressure from the County and City of Dublin for their Patients, and we consider that the Building accomodation in the Richmond Asylum for which our County is assessed is more than sufficient for the wants of our County.

We therefore beg leave to demand upon the part of our County that the accomodation which has been assigned to us in the Richmond Asylum shall be made available for our requirements, and at the same time we beg to protest in the strongest manner against our being made chargeable for any further additions to the Richmond Asylum until we shall have absorbed our full quota of accomodation which in our opinion amounts to 95 Patients.

We direct our Solicitor to appear by Counsel to oppose an application made to the Judge of Assize under the Merchant Shipping Act, to obtain a Presentment for loss alleged to have been sustained by Owners of the Barque Frederick.

Resolved.—That in the case of Presentment No. 1, Barony of Upper Dundalk granted at the present Assizes, our Secretary do notify to the contractor that he is not at liberty to proceed with the work until the approval of the Board of Works be obtained, in pursuance of the statute 16 and 17 Victoria, chap. 136, and also until the Commissioners appointed to carry out the Presentment, have succeeded in borrowing the sum required from parties willing to lend same on the security of the Presentment. Pursuant to said statute.

Resolved.—That the annual Salary of £300, payable to John Neville Esq., our County Surveyor, shall be altered to the annual Salary of £400, pursuant to the provisions of the Act, 24 and 25 Victoria, chap. 63, section 4, entitled "An Act to enable Grand Juries in Ireland, to increase the remuneration of County Surveyors, and for other purposes."

GRAND JURY ORDERS AT SUMMER ASSIZES, 1862.

Resolved.—That the Salaries of the Assistants to the County Surveyor, shall be as follows, viz :

First Assistant,—Seventy Pounds per annum.

Second Assistant,—Sixty Pounds per annum.

Third Assistant,—Forty Pounds per annum.

pursuant to the Act 24 and 25 Victoria, chap. 63, sec. 7. Entitled “An Act to enable Grand Juries in Ireland, to increase the remuneration of County Surveyors, and for other purposes.”

And we direct our Secretary to lay this our Resolution, before the ensuing Presentment Sessions for the County at Large.

The County at Large Presentment Sessions having disapproved of the Extra Constabulary charge upon the County, for Castletown Police Station, and requested the Magistrates to call a Special Sessions, for the purpose of obtaining a re-distribution of the County Permanent Force to provide for such Station. We hereby express our approval of such decision.

The Gaol Board of Superintendence having recommended an increase of Salary of £5 per annum, for the Assistant Matron of the County Prison. We recommend same for the consideration of the ensuing Presentment Sessions.

The Gaol Board of Superintendence, having recommended the consolidation of the offices of Bridewell and Court-house keeper at Ardee. We approve of same, and do hereby abolish the separate office of Court-keeper.

**To the Right Honorable and Honorable the Lords
Commissioners of Her Majesty's Treasury.**

**The Memorial of the Grand Jury of the County of Louth, duly
Assembled and Sworn at the Summer Assizes, 1862.**

SHEWETH—

That from the period of the levying of the County Assessment under the Tenement Valuation Act, up to the Summer Assizes of the year 1860, the Valuation Copies furnished to the County Treasurer by the Commissioner of Valuation in Ireland

GRAND JURY ORDERS AT SUMMER ASSIZES, 1862.

had inserted therein the names of the immediate Lessors, in addition to the names of the Lessees—

That in such Copies furnished since the Summer Assizes 1860, the names of the immediate Lessors appear to have been omitted altogether from the Valuation Lists furnished to the County Treasurer—

That at the Summer Assizes of the year 1860 your Memorialists forwarded to the Valuation Commissioner their opinion, “that the names of the Lessors should be inserted in such Lists, such information being required to facilitate the collection of the County Assessments”—

That at the Summer Assizes, 1861, the Lists then furnished not containing the required information, the County Rate Collectors petitioned Memorialists to take steps to procure the information for them—which they always had previous to the Summer Assizes, 1860, and which is furnished to the Poor Rate Collectors—which Petition your Memorialists brought under the notice of Major-General Sir Thomas Larcom, K.C.B., Under-Secretary for Ireland, soliciting his assistance to enable them to obtain what was required—

That your Memorialists received in reply, by direction of His Excellency the Lord Lieutenant of Ireland, through the Under-Secretary, the explanation of the Commissioner of Valuation, to the following effect—viz, “that the power to determine the Forms of Valuation Lists to be used for County Rating is vested in the Lords Commissioners of Her Majesty's Treasury, who have approved of the Form already in use; and, therefore, that Form cannot now be altered without their Lordships' sanction—that the same Form has been in Force throughout the whole of Ireland for the last two years without any complaint but Memorialists having arisen respecting it—that the Lists of the County having then (July 1861) being finally issued for that year, no change could be then made; but that before the Lists for next year be issued, the Commissioners will submit Memorialists' wishes to your Lordships with a view of obtaining your Lordships' approval to the introduction of the names of the immediate Lessors in the lists of our County”—

That in the Lists now furnished to the County Treasurer no such names have been introduced, nor have Memorialists received any communication upon the subject from the Valuation Commissioners—

GRAND JURY ORDERS AT SUMMER ASSIZES 1862.

Your Memorialists, therefore, beg to bring under the notice of your Lordships the hardship of their Collectors being deprived of the information necessary to facilitate their collection—which is furnished in full to the Poor Rate Collectors—and which was always furnished to Memorialists' Collectors previous to the Summer Assizes of the year 1860.

Your Memorialists earnestly pray of your Lordships to direct, that for the future the Valuation Lists furnished to the County Treasurer, be issued upon the same form as that supplied to the Poor Law Officers—which would assimilate the Lists furnished to all Collectors—and as the Valuation Act is not in force in every County in Ireland, your Memorialists submit the present time would be the best for making the alteration.

Your Memorialists beg also to add, that they have at no time been consulted as to the fitness or otherwise of the present form; consequently they could not have sooner brought the matter under the notice of your Lordships.

And Memorialists will ever pray.

For Self and Fellows,

JOHN S. ROBINSON,

Foreman of Grand Jury.

COUNTY SURVEYOR'S REPORT.

To the GRAND JURY of the County of Louth, assembled at

SUMMER ASSIZES, 1862.

GENTLEMEN,

An application for £1500 to make 190 perches of a New Road in the Town of Dundalk is the only presentment out of the usual class, on the Schedule now applied for. This proposed road was designed to open up the Quays of Dundalk with the North and

COUNTY SURVEYOR'S REPORT.

North-West portions of the Country and to relieve the traffic of the contracted roadway in Bridge-Street on Fair and Market days. The presentment was approved of twice at Road Sessions and the Commissioners of Dundalk Harbour subscribe in addition to the application, a sum of from £300 to £500 to complete the works which are of an expensive character and lie partly within low water and tidal lines along the Dundalk River. I consider the proposed work would be very useful and beg to recommend it for your sanction. ✕

With very few exceptions the contracts for the maintenance of roads in the respective Baronies have been taken at the late adjourned Road Sessions. Generally speaking the road contractors are improving and are becoming of a better class, but there are some who give my office a great deal of trouble and who would be more usefully employed for themselves and the public in any other capacity. The fact is road contractors require skill, forethought and integrity. Some of them never acquire one or the other, while others after the experience of a year or two become really valuable in their districts. There is no greater mistake than that a man who is unfit for every other pursuit will answer to mend roads. Some contractors cannot keep a road in order with any amount of materials while others do it with the least quantity, at a saving to themselves and to the public.

The roads, generally, throughout the County are in excellent order and owing to the strengthened surfaces and development of skill are in the course of being maintained with the least quantity of stones. The whole of the roads lately repaired by me under the Act 20 and 21 Vict., chap. 15, are now contracted for in the ordinary manner. One of them for example between the cross of Kilsaran and Conneyberry bridge in the Barony of Ardee at 9½d., a perch while the adjoining roads at each end cost from 2s. to 2s. 4d., per perch. I believe that much good has been effected by the operation of this Act within the last few years both by ensamples of work and the prevention of reaction and combination. As the whole of the roads repaired under it are now contracted for in the ordinary manner. I will say that without the aid it afforded, the County roads and contractors would ere now be beyond any control. The Act was always intended as it has been used in this County as a corrective for an abuse and now that what was necessary is effected,—I sincerely hope there shall be very few occasions in which it may be necessary to again make use of it.

COUNTY SURVEYOR'S REPORT.

A few words on the cost of the plant and organization I had to effect for carrying on those Works. The amount paid for plant, office, furniture and fixings out of the Presentments from time to time, was £165, most of which is on hands if again required; the balance paid back to the County and available to its credit £521; the cost of Overseers, Accountant, Paymaster, and Car hire, about £160 a year, all paid out of the Savings effected and charged to the Works. In no instance was an extra Presentment applied for to complete them, in most cases extra work not required from ordinary contractors were done, and in the case of the Fane bridge, it was built for £400, although the bridges above and below it on the same river cost more than twice the amount. The only thing I regret connected with these Works was having to make payments, a work which should be separate from my Office, and indeed the position in which I was placed with reference to them was not the less unpleasant in being entirely without any compensation.

I hope you will at this Assizes make such arrangements for making payments, if any works shall again be given to me to execute, as the Chief Remembrancer shall approve of. Since the last Assizes I made any limited payments required, out of the balances in my hands to your credit, for other works than those to which they were applicable, the Treasurer declining to make any payments on the accounts sent in. Consequently little work was done notwithstanding the wetness of the season but that little was sufficient to prevent any loss or inconvenience to the public.

I have not yet appointed a fourth Assistant to the Vacancy which has now continued for some Assizes, my reason for not doing so, was the opinion that a salary of £30 is insufficient to secure and maintain the services of a trustworthy and qualified person, and that that Salary may be lost on a few contracts alone, several times over, to the County if an Assistant possess not integrity and energy.

An Act 24 and 25 Victoria, chap. 63, was passed last year for the purpose of enabling Grand Juries at this Assizes, to increase the remuneration of County Surveyors and Assistants. The length of roads under contracts in this County, has increased from 380 miles in 1840, the year of my appointment, to 544 miles in the last year. Piers and Turnpike roads have been added to the duties, the latter alone to the extent of an expenditure of about £2400, yearly, and for which Surveyors alone, not including Overseers (Assistants), received about £125,

COUNTY SURVEYOR'S REPORT.

yearly. For this increase of duty I lost £25, yearly as Surveyor to one of the Trusts, and received no compensation. The Barony of Drogheda was also added to my district. The number of Assistants instead of being greater is now one less than I found here on my appointment in 1840. I shall leave these with other matters to your consideration and that of the Committee to inquire into the duties of my Office.

I am Gentlemen,

Your Obedient Servant,

JOHN NEVILLE.

COUNTY SURVEYOR'S REPORT.

TO THE GRAND JURY OF THE COUNTY OF LOUTH, ASSEMBLED
AT SPRING ASSIZES, 1863.

GENTLEMEN,

The amount levied for County Works during the past Year was £11,461 4s. 10d.; the amount levied in the preceding Year was £12,092 19s. 7d., which figures show a reduction of £631 15s. 9d. in the expenditure of 1862 below that of 1861. The number of miles of road under repairs and maintenance in the last year was 55⁰ miles 5 furlongs and 17 $\frac{1}{2}$ perches, repaired at an expense of £9,496 15s. 7d.; the corresponding figures in the preceding year were 543 miles 1 furlong and 15 perches, repaired at an expense of £9,972 10s. 8d., which show an increase of 7 miles 4 furlongs 2 $\frac{1}{2}$ perches in the mileage, but a decrease of £475 15s. 10d. in the whole cost of repairs and maintenance. The average rate per perch was 12.9 pence, and the rate per £ in the valuation for all works 13.64 pence in 1862; the corresponding rates in the year 1861 were 14.2 pence per perch, and 14.45 pence per £. I shall not occupy your time by entering into the details for each Barony, but these are fully shown in the Table which accompanys this Report, both for the Spring and Summer levies. Altogether the Works, and the Expenditure on them last year, compared with those of previous years, as given in my Report at Spring Assizes 1862, show an increase of mileage, but a reduction in the Expenditure.

By referring to the Table it will be perceived that the contrast betwixt the amount levied in Spring and Summer is greater for the Baronies of Louth and Lower Dundalk than for the other Baronies; and that in every Barony the Spring levy is in excess of that laid on in Summer. This excess of levy, coming at the season when the farmer has least to meet it, arises principally from the time betwixt the Spring and Summer Assizes, being only about four months—generally favourable weather—while the time from Summer to Spring is about eight months, including the Winter, when the greatest expenditure for repairs takes place, and when Contractors, therefore, most require advances. As these advances are not available, for want of available funds, until the Assizes after the Presentment is made, the struggle amongst Contractors is to transfer all Presentments exceeding £20 into Spring Presentments—the funds being then available between Summer and Spring,

COUNTY SURVEYOR'S REPORT.

when most required. In order to relieve themselves the Cesspayers in Lower Dundalk succeeded at the last Sessions in postponing most of the applications for the repairs of roads until next Road Sessions. In the meantime the district must suffer, and the average rates afterwards rise. Materials for the repairs of roads are more conveniently procured between the Spring Assizes and Winter than between the Summer Assizes and Winter, and this, also, strengthens the preference for Spring Contracts, which adds to the levy for that season.

The New Works on the Schedule are of the usual kind, and I shall report on them separately, as the respective Presentments are called. The only works to be certified are both in the Barony of Ardee—one for making a New Line of Road through the Bog of Ardee, which I am of opinion should be laid out as formerly approved of during the Relief Works, and not as shown in the proposed plan; the other is to build a New Bridge, near Annagasson, over the river Glyde, including an Arch over a millrace, and an alteration in the present roadway. Both these works will be certified as a matter of form, as required by the Statute, and I shall lay the necessary plans before the next Road Sessions, which they can be adopted or rejected at the following Summer Assizes.

A sum of £30 was paid to me by the Treasurer, after last Assizes, to repair a sudden damage to the Wooden Bridge put up by the Commissioners of Drainage, at Maine, near Annagasson. I have only expended the sum of £8 4s. 3d., and the balance of £21 15s. 9d. is yet available for further repairs if it shall be necessary to make them.

My Accounts of Expenditure shall be submitted to the Committee appointed to examine them, and any balance remaining will be now handed over to the Treasurer for the purpose of being re-presented or otherwise applied for County purposes.

Two Bills are at present before Parliament for the construction of Railways betwixt Newry and Greenore on the Northern Coast of the Barony of Lower Dundalk, along Carlingford Bay, and betwixt Dundalk and Greenore in the South and East of the same Barony. The proposed crossings with our County Roads are in several cases objectionable, and I have reported to the Board of Trade respecting them. The proposed crossing of the Carlingford direct road betwixt Ballymascanlon Bridge and Mr. Tipping's Avenue Gate, where it is proposed to lower the road eight feet, would lay the road permanently under water. It does not appear to come directly within the jurisdiction of the Authorities; and, I am of opinion, it is necessary to reduce the proposed

COUNTY SURVEYOR'S REPORT.

cutting and carry the railway higher at that place if the Cesspayers will prevent their leading road from being drowned, or, taking its only alternative, a level crossing, which would be very objectionable on such a thoroughfare.

I have lately inspected the Works of the Harbours of Carlingford, Dunany and Clogher Head. A sum of about £15 will be required for repairs and a dead-man at Carlingford; £15 for repairs and cleaning out at Dunany; and about £32 for repairs at Clogher Head. The Grand Jury has power to make Presentments for these works without previous application to Road Sessions.

The Mattock Bridge at the bounds of the County, near Townley Hall, has been satisfactorily finished by the Contractor since last Assizes. The plans of the New Road in the Town of Dundalk were approved of by the Commissioners of Public Works, and a loan obtained on the Presentment. The works have progressed to some extent, and about £300 is expended. It would, however, be of great advantage if the fillings for the proposed Fair Grounds were carried on at the same time as the remainder of the work.

The past season has been an unusually severe one on Road Contractors. The surface repairs were, however, generally well attended to, and with those exceptions which I believe are incidental to the employment of many persons as Road Contractors, the County roads under contract have been maintained in good order.

I have the honour to be, Gentlemen,

Your obedient servant,

JOHN NEVILLE.

Ordered—That the County Treasurer be empowered to pay Thomas Brown, the sum of Thirty Seven Pounds Eleven Shillings, expended upon the repairs of Carlingford Harbour and certified by the County Surveyor, charging same to the account of said Harbour.

GRAND JURY ORDERS AT SUMMER ASSIZES, 1863

That a further sum of Six Pounds Eight Shillings for repairing the Coast Guard slip at Carlingford be expended under the superintendence of the County Surveyor, and paid by the County Treasurer out of the funds of said Harbour when available.

That for the future no sum be expended upon the Harbour of Carlingford except under the authority of a Grand Jury Order, or by a Presentment.

Ordered.—That the sum of Seventy Five Pounds, being the amount of five years salary advanced out of the County rates and paid to the Harbor Constable of Carlingford for said period, up to and including the present Assizes, be charged by the County Treasurer, to the Receipts of the said Harbor, and placed to the credit of the levy upon the County at Large, at the present Assizes, and that the account in detail of said Harbor Receipts and Disbursements be inserted annually in the Grand Warrant, (by the County Treasurer), following each Summer Assizes, the salary of the Constable of said Harbor for each year then ending being charged in said account, in like manner as above arranged.

Mr. Peter Cahill, first Assistant to the County Surveyor, having resigned his Office, We appoint Mr. James Needham Gildea, to fill said office.

Ordered.—That the Presentments granted at this Assizes, to the County Surveyor, under the Act, 20 and 21 Vict., chap. 15, be expended by contract entered into by him with proper parties for executing said works, and that the County Treasurer do make advances to the said Contractors, during the execution of said works, under the certificate of County Surveyor.

Ordered—That second Assistant John M'Alester, do replace at his own expense a fence which by his mistake was built 3 to 5 feet out on the public road.

Resolved—That in the case of the Presentment passed at the last Assizes, upon the Barony of Upper Dundalk, for lowering hills and filling hollows at Mullaharlin, the County Surveyor be empowered to make such alteration in the execution of the Work as in his judgement may be advantageous for the interests of the County.

Ordered—That the necessary Measures, Stamps &c, requisite to complete the copies of the Imperial Standards, be furnished to each Petty

Sessions District within this County, pursuant to the Act 25 and 26 Victoria Chapter 76, Sec. 7.

That the Imperial Standard copies of the Weights and Measures of this County be re-verified at the exchequer, as required by the Act 23 and 24 Victoria Chapter 119 Sec. 15.

That the foregoing be executed with the least possible expense, and that the County Treasurer be empowered to defray the cost of same out of the County funds in his hands, pursuant to said Acts.

COUNTY SURVEYOR'S REPORT.

To the GRAND JURY of the County of Louth, assembled at Summer Assizes, 1863.

GENTLEMEN,

A sum of £1200 is applied for to build a bridge and improve the roadway over the river Glyde near Annagassan in the Barony of Ardee. The sum is sufficient for the work to be done but the performance of this work requires more than average skill and energy. I hope the contractor will meet these requirements in the event of your approving of the presentment which I think is necessary.

A Presentment for £786 has been approved of a second time at Road Sessions for making a new road into and through the bog of Ardee. The whole length of the line approved of is however 500 perches instead of 422 perches in the application, and my estimate at the lowest is £830, or £44 under the sum applied for, the object of this Presentment is to further open up the bog. The Cess-payers were unanimous in approving of the Presentment, but a portion of the line as I reported at last Assizes is not what I would recommend for County purposes, though it would be most valuable to the bog owners and those getting turf from them. There have been however more improved lines of communication opened in this Barony than any other portion of the County, and the Cess-payers generally whose opinions deserve the fullest consideration appear united in favor of this line of road also.

The other works on the Schedule are of the usual kind, and I shall report separately on them where necessary, as they are called over.

COUNTY SURVEYOR'S REPORT.

A sum of £14 0s. 0d., has been paid for works done in connexion with the Harbour of Carlingford, since last Assizes, a sum of £44 is also now required to pay for fenders along the Quay wall and various repairs. The dues paying in on Vessels will cover these expenses without any Presentment, while on this subject I beg to report that I find the proposed Newry and Greenore Railway will take away the berths of four Vessels in crossing the Quay, and that some effective action will be necessary to protect the interests of those frequenting the Quay and Pier.

The new road in the Town of Dundalk, along the river, is now nearly finished. The cost of the specified works under the Presentment will not exceed half of the estimate, but the saving will be applied principally by the Town Commissioners, in filling in the low strand embanked from tidal waters, and in building a stone wall parapet in place of the specified post and rail fence along the river side. The works were carried on by me acting for the Town Commissioners as contractors.

One of the Assistants has made a mistake in laying out a fence on the late turnpike road north of Dunleer, and I shall submit the facts for your instructions.

The first Assistant Surveyor resigned this Office on his appointment as Harbour Engineer, Dundalk, since last Assizes. I advertised for a person to supply his place and appointed Mr. J. N. Gildea, from twenty three Candidates who applied for the situation until the present Assizes. I regret having lost the services of Mr. Peter Cahill, although glad to know that his energy and attention and the knowledge he acquired while acting as Assistant Surveyor, led to his present advancement.

The Grand Juries at last Spring and Summer Assizes, and the Cess payers at the last December road Sessions were unanimously pleased to advance my salary to the amount allowed by the new Act, 24 and 25 Vict., chap. 63, I am grateful for the confidence reposed in me by the Grand Jury, Justices and Cess-payers, and I beg to express my thanks for the gracious and substantial manner in which it was shown.

I have the the honour to be, Gentlemen,

Your obedient servant,

JOHN NEVILLE,
