| Barony of Ardee, 81,    | ... | 6 0 0    |

In consequence of a vacancy occurring in the appointment of Cess Collector for the Barony of Lower Dundalk,

We direct our Secretary to give notice in the Public Papers that Magistrates at the ensuing Quarter Sessions at Dundalk, or the adjournment thereof will receive applications and make a provisional appointment for same. And we also direct, that in case of a provisional Appointment taking place our Secretary do give Notice by Public Advertisement that the Grand Jury will proceed to the appointment of a Cess Collector, for said Barony, on the first day of the Ensuing Assizes, at the rate of Nine Pence per Pound, for Collecting.

The Grand Jury of the County of Louth assembled at Spring Assizes, 1848, after taking into consideration the statement of their County Surveyor, and of the Deputation from the Dublin and Belfast Junction Railway and Sir John Macneill, respecting the Bridges at the Crossings of the County Roads with said Railway, are satisfied to forego for the present any further proceedings against the Company, on the following conditions,

viz:—

First. That all expences incurred in this Matter by Mr. Booth, their Solicitor, and by Mr. Neville, their County Surveyor, be paid immediately by the Company.

Second. That one of the Abutments of the Bridge at Sportmans-Hall be removed, so as to make the Roadway and Footpath of the original width, from Fence to Fence, and in accordance with the Declaration of the Commissioners of Public Works, Dated August, 1847.

Third. That the approaches and inclinations to the other Bridges built by said Company, in this County, be finished to the satisfaction of the County Surveyor, (Mr. Neville,) and in those cases in which the Bridges are only partly built and the road passes over the Railway that there be a clear width of 25 feet between the fences.

Fourth. That all crossings, passages and injuries to the County Roads by the Company's Works shall be immediately made good, to the satisfaction of Mr. Neville, and that immediate instructions be given to the Company's Engineer to that effect.

Fifth. That all Bridges hereafter to be built at other crossings of the County roads, shall be in strict conformity with the Acts of Parliament and the Declaration of the Commissioner of Public Works, and that in every instance where it is proposed to alter or divert a road or modify it in any respect the County Surveyor shall be furnished with the necessary tracings and such other information given as he may require.

In accordance with the certificate of Mr. Neville and of the Commissioners appointed at Spring Assizes 1846. An order on the County Treasurer has been given to Mr. John Murray, Contractor, for £290, being the balance due to him on his contract, for the additions and alterations in the County Court-House.

An Order has also been given on the County Treasurer, for the sum of £110, to John Neville, Esq., to pay him for his services as Architect and Clerk of the works, during the performance of said Contract.

Tenders for inserting the County Advertisements for the ensuing year from the following Newspapers have been accepted. viz :

P. BELLEW,

Foreman of Grand Jury.

## COUNTY SURVEYOR'S REPORT.

Gentlemen,

The amount applied for, on new applications, at this Assizes is £4351 6s. 7d. of which the portion for Ferrard Barony is £987 0s. 5d.; the portion for Drogheda Barony £111 1s. 3d.; the portion for Ardee Barony £779 4s. 0d.; the portion for Louth Barony £458 18s. 3d.; the portion of Upper Dundalk Barony £322 18s. 5d.; the portion for Lower Dundalk Barony £242 4s. 3d.; and the portion for the County at Large £1450, which includes the sum of £1400, or thereabouts, for completing the cutting of Ballybarrack Hill.

The greater number of applications are for the repairs of roads, which owing to an expected change in the Grand Jury Laws, during the present session of Parliament, have been adopted, unless in a few instances, for only one year.

The necessity for adopting the presentments for road repairs in the most of the cases before you, is so strong that it is unnecessary for me to dwell upon it. The roads cut up or those portions of them where new metalling was applied during the continuance of the relief works, are in a very bad state, no repairs having been made since the stoppage of these works.

As the presentments are brought in succession before you, I shall be ready with detailed reports, but there is one application, that for completing the cutting down of Ballybarrack Hill, which it is necessary for me to dwell on more particularly here.

Of the imprudence of carrying this project into operation, previous to the commencement of the works, I was always convinced, and my opinions on the subject have been more than once laid before you, and also before the Commissioners of Public Works. The question now however, assumes a new aspect, the work has been carried into execution to a certain extent, a large sum has been expended on the cutting, and the adjacent ones on the same line of road, which road is, I may say wholly stopped up, owing to the unfinished cutting at Ballybarrack. The lands, it is said, required for the side cuttings and side fillings, will be given without purchase to the County. It is probable that this work can be now executed for a smaller sum than it could, at another time and under different circumstances, as a great portion of the rock excavation could be sold with advantage for the works of the new prison. If, therefore, a tender be made, and a good contractor can be had, for the execution of the work for any sum under £1400, I consider, and under existing circumstances, it would be best, perhaps, to sanction it.

B

A conditional order was obtained in the Queen's Bench to take down two of the Bridges erected by the Dublin and Belfast Junction Railway Company over two of our County roads, and this step is merely preparatory to obtaining the removal of the other Bridges built illegally by that Company in this County. Previously to obtaining the conditional order your Solicitor and myself had written to the Secretary of the Company, but our letters were not answered. In my report for last Summer Assizes, I explained to the Grand Jury the permanent injury that was being inflicted on the County by the construction of these Bridges, and the cool indifference that was manifested to the interest of the Cess-payers and my representations. I now beg leave to lay before you the declaration of the Commissioners of Public Works on the subject, a declaration made on the report of an eminent and experienced Road Engineer, which shews that the County is not only entitled to the full roadway of 25 feet provided by law at the respective crossings complained of, instead of 20 feet, the utmost given by the Company; but that an increased breadth beyond 25 feet is required (8 Vict. Cap. 20, Sec. 3.) in the respective cases mentioned in the declaration, which declaration bears date the 27th August, 1847, and was duly forwarded to the Secretary of the Company immediately after.

During the years 1846 and 1847 certain works were adopted in this County under the Act 9 Vict. Chap. 1, for the purpose of giving employment to the labouring poor. These works were given to me to execute, by the Cess-payers, and I have now to account for the execution of some of them, and to state why the others were not executed, and to recommend that the sums remaining in my hands and the County Treasurer's, be represented in aid of the respective Baronies in which the presentments were made amounting in all to about £240, of which, savings amounting to about £50 on the respective works, remain in my hands and which I shall lodge to the credit of the Baronies in which the works are situated where they have been effected. In addition there is in store, the property of the County, plant to the value of £69, less by the decrease in value for wear and tear.

The works not carried into operation, amount to about £169: The other relief works in the vicinity of these rendering it unnecessary to expend any of the amounts presented, more particularly, as the half of the expense of these works was chargeable on the Baronies, whereas the whole of the others, if executed, would have to be repaid.

I have the honor, to be,

Gentlemen,

Your Obt. Servt.,

JOHN NEVILLE.

Declared by me, this 11th day of February, 1848.

(Signed,)

ACHESON LYLE, C. R.

A true Copy.

M. W. SAVAGE, Clerk of the Council.

NOTE.—The Treasurer took Credit for £100, as having been paid to the County Surveyor, under the 9th Viet. C. 2; but the work in respect of which the payment was made was not completed within the year 1846, nor accounted for as required by the 10th section of the Act. The above sum has therefore been disallowed, without prejudice however to the Treasurer's getting a credit for it, when the Work shall have been duly accounted for.

P. BELLEW,  
Foreman of Grand Jury,

ALEX. SHEKLETON, Secretary.

COUNTY SURVEYOR'S REPORT.

GENTLEMEN,

The amount of applications for new works, at this Assizes, is £2739 5s. 8d., of which the portion for the Barony of Ardee is £966 2s. 2d.; the portion for the Barony of Drogheda £18 14s. 8d.; the portion for the Barony of Ferrard £477 5s. 0d.; the portion for the Barony of Louth £276 12s. 4d.; the portion for the Barony of Upper Dundalk £708 2s. 3d.; and the portion for the Barony of Lower Dundalk £292 9s. 3d. There is also a presentment for £2000 for finishing the cutting of Ballybarrack Hill, for which Tenders are now to be opened, but as the circumstances connected with this work, have, at a previous Assizes, been laid before you, it is unnecessary now to refer to them again.

The only works, on the schedule, it is necessary to refer to particularly, are Nos. 1 and 2 in the Barony of Ardee, both new roads left unfinished when the Relief Works carried on in 1847, in this County, were stopped. The first leads from the road near the Rev. Mr. Olpherts, at Cookstown, to the end of Mr. Singleton's new road, in the County of Meath, and the second leads from Ardee, through the Bog of Ardee, to the same point, grafting into the first at about a quarter of a mile from the County boundary: both are works of importance, as they open up a hitherto closed bog district, and they were selected, formerly, by a Committee of your body as useful works. The sums at present applied for, will not complete these roads, and further presentments will be required from time to time for that purpose, but the sums on the schedule are moderate, for the works now proposed to be executed viz., building the gulleys, and completing the forming and metalling, to a certain extent, as pointed out in the specification.

The resolutions passed by the Grand Jury, at the last Assizes, with reference to the crossings of the Dublin and Belfast Junction Railway at the County roads, have as yet been only partly complied with by the Company. The Forkhill bridge and the bridge leading from Dunleer to Grange-bellew, have been both in part taken down by the Company and rebuilt, and the bridge at Grange-bellew has been widened. The designs for the other bridges have been altered so as to give carriage-way of from 25 to 35 feet, increasing according to the traffic at the respective crossings, and the obliquity of the skew. I have entered into the following arrangement with the Company's Engineer respecting the crossing subject to your approval.

No 1, Termonfeckin road, arch 35 feet, span at least, direct Carriage-way, 25 feet at least.

No. 2, Townrath road, 25 feet, with approaches to please.

No. 3, Cartown bridge, (built) to be widened from 20 to 22 feet, and planes on each side of 1 in 25.

No. 4, Galroostown road, 20 feet, with approaches made to please.

No. 5, Kellystown road, direction and level unchanged, 25 feet between the parapets.

No. 6, Rathdromin road, to Reynoldstown, level unaltered, 30 feet roadway, skew to road, but approaches to be made to please.

No. 7, Grange-bellew road to be widened from 20 feet to 26 feet.

No. 8, Dunleer bridge to be widened from 20 to 25 feet, and planes improved.

No. 9, Dunany road leading from Dunleer, abutments to be punched to 20 feet clear, roadway.

No. 10, Blackmills old road, 25 feet roadway. Bridge skew to road, but approaches made to please.

No. 11, Mullin's cross and Stabannan road, bridge to be widened from 20 to 22 feet 6 inches, approaches of 1 in 25.

No. 12, Charleville bridge, road from Castlebellingham to Stabannan, inclinations of approach to be improved by cutting off the top to 1 in 25. The abutments to be punched clean so as to leave 20 feet clear, and the width of roadway at the approaches to be 23 feet.

No. 13, Bolies and Manfieldstown road, 25 feet carriage-way.

No. 14, Castlebellingham and Mansfieldstown road, townland of Drumleck, bridge to have 25 feet of roadway direct; inclination 1 in 25.

No. 15, Whiterath road, (bridge built,) 20 feet carriage-way, approaches made to please.

No. 16, Haynestown road, near Clermont, 25 feet direct, heights to be increased to 15 and 12 feet, at crown and springing.

No. 17, Haynestown and Killaly cross, road 25 feet, approaches made to please.

No. 18, Ardee road, 35 feet skew or 30 feet direct, inclinations of 1 in 30.

No. 19, Forkhill road, bridge taken down and rebuilt to 31 feet roadway; inclinations and drainage to be improved.

No. 20, Faughart bridge, to be punched to 20 feet and approaches made to please.

No. 21, Faughart, old turnpike road crossing on level, but inclinations to be improved.

No. 22, Plaster road, 25 feet skew; approaches made to please.

No. 23, Plaster road, No. 2, 25 feet skew, approaches made to please.

No. 25, Old Newry road, 25 feet skew, approaches made to please.

The crossings have not been kept in proper repair, by the Company on this line, and it may therefore be useful to state here, that the Justices in each district, have power to direct repairs to be made, and in the event of non-compliance to inflict a penalty of £5 per day.

(8 Vict. cap. 20, sec. ) on the Company which may be applied to such repairs. Taking into consideration the many concessions made to the Company by the Grand Jury, I am of opinion that the letter or spirit of the resolutions passed at the last Assizes, with reference to the repair of the crossings, have not been fairly complied with.

I now beg leave to draw your attention to the crossings on the Dundalk and Enniskillen Railway; on this line, two of the bridges out of four, over the County roads, are built, they have 25 feet carriage-way each between the parapets, but the approaches and roadways are yet unfinished; one of these bridges in the townland of Kilcrouney is in a most dangerous state, and is left narrow, unmetalled, and without proper fences or any sufficient protection to the public, though the embankment is forty or fifty feet high, and the width at top in places only about 13 feet. My representations to the Company were not attended with any useful result in having these crossings finished and repaired; Summons were therefore served on the Company and a penalty of fifty pounds including costs was obtained from the Justices of Louth Petty Sessions, and an engagement, on part of the Company, to complete the work at Kilcrouney, within two months, and the work at Tullygee within three weeks.

The bridge crossing the Dundalk and Ardee road has not yet been commenced, though that adjacent under which the Junction Railway passes is considerably advanced; these works should be finished together, the traffic on this road will be further obstructed by their not being so. The rails certainly should not have been laid on this road, until the bridge and road over it are completed.

On the representation of the resident Engineer and a local Magistrate, I gave permission, until this Assizes, to lay temporarily, on certain conditions, the rails of this line over the Windmill road, where it is proposed to erect a bridge. The conditions entered into of finishing the crossing to my satisfaction and keeping it in repair have not been complied with, and I beg leave to bring the matter now before you.

The embankment on the Turnpike road entering the Town, blocks up the road, termed the long avenue, in a very extraordinary manner: I have served notice on the Company to continue a plane similar to that on the Turnpike road over and along it, and the Company have appealed to the Board of Trade in the matter. As this work lies immediately at the entrance of the Town some of the Grand Jury will probably inspect it and then a pretty fair idea will be gathered of the manner in which the Dundalk and Enniskillen Company attempt to leave works affecting your interests and those of the Cesspayers.

As several cases of traverse for damages for land taken for relief works have been postponed to this Assizes, I think it would be judicious to engage Mr. Tipping the valuator, for the Board of Works, to

give evidence as to the value on the part of the County. I have to lodge two small sums received for the sale of stones and plant to the credit of County, before you separate, and I beg to suggest that these and the sums unexpended under the Act 9 Vict., cap. 2, to be represented to the benefit of the Baronies on which they are to be levied, amounts to £49 in the Barony of Louth, and £120 in the Barony of Lower Dundalk. These sums were advanced by the Treasury, but the works on which they were to be expended became unnecessary from the operation of the Relief Act, the balances saved on the works commenced and accounted for under this Act were represented at last Assizes.

I have the honor to be,

Gentlemen,

Your Obt. Servt.,

JOHN NEVILLE.

In consequence of a vacancy occurring in the appointment of Cess Collector for the Barony of Lower Dundalk,

We direct our Secretary to give Notice in the Public Papers that the Magistrates at the ensuing Quarter Sessions at Dundalk, or the adjournment thereof, will receive Applications and proceed to make a Provisional appointment for same.

And we also direct that in case of a Provisional Appointment taking place, our Secretary do give notice by Public Advertisement, that the Grand Jury will proceed to the appointment of a Cess Collector for said Barony, on the first day of the ensuing Assizes at the rate of 9d. per pound for Collecting.

Ordered, that the County Surveyor be instructed to have applications brought forward at the next presenting Sessions for making a new line of road round the hill at Ballybarrack, to join the road near Knockbridge—not to exceed £900 exclusive of damages, and also another for improving the Hills on the old road at Bally-

barrack, not to exceed £700, to be raised off the Barony of Upper Dundalk, in order to afford the Grand Jury and Cess Payers an opportunity of selecting which ever may be considered most advantageous to the Public and completing the communication between Dundalk and Kingscourt, by Knockbridge.

**COMMISSIONERS FOR BUILDING NEW GAOL,  
COUNTY LOUTH.**

THOMAS FORTESCUE, Esq. CHAIRMAN.

Right Hon Lord Bellew,  
Blayney Townley Balfour, jun. Esq.  
George Macartney, Esq.  
Thomas Lee Norman, Esq.  
Lewis Upton, Esq.  
John M'Clintock, Jun., Esq.  
Francis Donagh, Esq.  
Myles William O'Reilly, Esq.  
James W. M'Neale, Esq.  
Thomas W. Filgate, Esq.  
John J. Bigger, Esq.

RESOLVED

That the Commissioners appointed for Building the new Gaol in this County, be empowered to make the alteration and Extension in the Chapel of same, proposed by their Architect and approved of by the Lord Lieutenant, at a present expence not exceeding £230

COUNTY SURVEYOR'S REPORT.

GENTLEMEN,

The amount of applications for works sanctioned at the late road Sessions, now brought before you, is £3910 8s. 1d. of which the portion for the Barony of Ardee is £1642 14s. 5d. ; the portion for the Barony of Drogheda, is £90 14s. 7d. ; the portion for the Barony of Ferrard £936 13s. 8d. the portion for the Barony of Louth, £533 17s. 6d. ; the portion for the Barony of Upper Dundalk £453 11s. 7d. ; and the portion for the Barony of Lower Dundalk, £252 16s. 4d. There are also in addition, two applications, one for £2000 for lowering Ballybarrack Hill ; and the other for £700 for completing 900 perches of the new line of road from Dundalk to Carrickmacross by Thomastown for which tenders are to be now opened.

The amount sanctioned for works in the Barony of Ardee is unusually large owing to a sum of £380 for completing the new road from Dundalk to Drumcondra through Glack Bog ; and another sum of £362 for extending the road through Ardee Bog, being both included in it ; these works are numbered 32 and 31 in the Schedule, the Sum of £700 above referred to, for completing the road by Thomastown to Aclint, commenced as a Relief work, is proposed to be borrowed from the Commissioners of Public Works ; and, as an engagement was entered into with Mr. O'Reilly, to complete this work, on the condition that he would not press his claim for damages, and as (also) the ground is purchased for the remainder of the line not passing through his Estate, the application claims your favourable consideration.

The Board of Trade having decided against the Dundalk and Enniskillen Railway Company, in the appeal made respecting the entrance to the road, called the long Avenue, near this town ; the Company had again to open this road to the Public ; and though the entrance as it is now executed, is greatly inferior to the original one existing before the Railway was constructed, it is yet so much better than the one first given by the Company, that I do not regret the exertions made in bringing the matter before the Public, The fences made on the adjacent embankments on the Dublin road are not in accordance with the arrangement entered into by me with the Company, as they are still principally constructed of posts and rails instead of stones. The Company have finally acceded to giving the full roadway at the crossing on the Ardee road in accordance with the order of the Commissioners of Public Works obtained by me so that the entrances into the town will not now be blocked up as they would have been if the original designs were permitted to be carried out. The bridge at Kilcronev was (up to last week) unfenced and in a dangerous state,

With reference to the crossings of the Dublin and Belfast Junction Railway, I have again to report, that the resolutions entered into at Spring Assizes, 1848, and the arrangements made thereon with the Company's Engineer by me, have not been complied with. The approaches to the crossings, in Lower Dundalk Barony, and elsewhere, are unfinished; and the bridge on the road from Castlebellingham to Mansfieldstown is built out of the line of the roadway, though it was specially agreed upon, that this bridge was to be built in a direct line with it. It will, therefore, be necessary for the Grand Jury to take some decisive steps respecting these crossings, at this Assizes.

The Works carried on under the Drainage Commissioners have led to the falling in of a part of Mapastown bridge on the direct road from Ardee to Dundalk

A sum of about £5 received for plant sold since last Assizes, remains in my hands, it shall be lodged to the credit of Lower Dundalk and Louth Baronies, for works in which, the plant was purchased.

I have the honor to be

Gentlemen,

Your Obt. Servant,

JOHN NEVILLE.

Resolved—That in consequence of the resignation of B. T. Balfour jun., Esq., the name of John Townley Esq. of Dundalk, be inserted in his place as one of the Commissioners for building the New Gaol in this County.

The Cess Collectors are directed to lay before the Foreman of the Grand Jury the first day of each Assizes, a list of the names of such persons who have not paid him the County Cess.

## COUNTY SURVEYOR'S REPORT.

GENTLEMEN,

The applications for Road works sanctioned at the late Road Sessions, amount to £2058 16s. 1d.; of which the portion for the Barony of Ardee is £684 6s. 2d. the portion for the Barony of Upper Dundalk £399 13s. 9d.; the portion for the Barony of Lower Dundalk £162 11s. 0d.; the portion for the Barony of Louth £145 3s. 0d.—

In addition to the foregoing amounts, tenders for lowering Ballybarrack hill in the Barony of Upper Dundalk the expense of which is not to exceed £700; and for completing a portion of the Glenmore Road opening up the mountain Districts in the Barony of Lower Dundalk, commenced under the Relief act, the expense not to exceed £1,200; are now to be opened and laid before you. The circumstances connected with the lowering of Ballybarrack Hill are so well known to you that it is unnecessary to refer to them here; The Glenmore Road is one of great importance to the Public, and in addition may be looked upon as almost essentially reproductive in its effects on the adjacent mountain districts. The ground for nine-tenths of the line has been given free to the county, and the remaining small portion has been paid for. The summit level rises 500 feet over the commencement of the line which will exceed 10 miles in length, and the steepest gradients are not to exceed 1 in 25 for a short distance.

The crossings of the Dublin and Belfast Junction Railway with the County roads remain nearly in the state mentioned in my report for Spring Assizes 1849. Those on the Dundalk and Enniskillen Railway have been improved, and Mr. Dargan, the Contractor has given directions to his Engineer to finish them to my satisfaction. The post and rail fences without sheeting or skreens, are however, in every instance most objectionable, on embankments, and it is necessary some final decision respecting them should be come to by the Grand Jury.

I have the honor to be

Gentlemen,

Your Obt. Servant,

JOHN NEVILLE.

We the Grand Jury of the County of Louth, duly assembled and sworn at the Summer Assizes, held at Dundalk in and for said County, on the Ninth day of July 1849, in pursuance of the Act 6 & 7 Wm. the 4th, Chap. 116, Section 56.

Do present the Sum of Six Hundred Pounds, for the purpose of lowering a Hill and filling a Hollow, on the road from Dundalk to Kingscourt by Louth, between the turn of the road to the Little Mill, and the turn of the new road to Ardee.

And further, in pursuance of the powers to us in that behalf given, in and by an Act of the 1st and 2nd Wm. 4th, Entitled "an Act for the extension and promotion of Public Works in Ireland" Sec. 23, and to enable us to borrow the said sum of Six Hundred Pounds, from the Commissioners appointed under and by virtue of said Act, and to repay the same.

We do present that the said Sum be raised and levied upon the Barony of Upper Dundalk, by Half-yearly Instalments, of Sixty Pounds each, the first of said Instalments to be raised after the present Assizes, and the remaining Instalments after the next and each and every successive Assizes, until the whole of the said Sum shall be raised and discharged.

And further in pursuance of the powers in the said last mentioned Act contained—We do further present the Sum of One Hundred and Ten Pounds, to be raised upon the Barony of Upper Dundalk, to pay the annual interest of the said Sum of Six Hundred Pounds, and of such part of the same as shall from time to time remain due at such rate not exceeding Five per cent, as the said Commissioners may appoint or direct. And we present the Sum of One Hundred and Ten Pounds to be raised half-yearly in such sums as may from time to time be required to satisfy the interest of so much of the said principal Sum as shall be and remain due after the application of the sums presented to be levied for its satisfaction, one of such Sums or Instalments to be raised upon the Barony of Upper Dundalk, after the present and every future Assizes, and the other upon and after the next and every future Assizes, in the next and each succeeding year, until said principal Sum shall have been fully paid as aforesaid.

JOCELYN,

FOREMAN.
