

Declaration

In accordance with Part IV, Section 57 (2) of the Local Government (Planning and Development) Act, 2000 (as amended).

Louth County Council:

This declaration specifies what works would, or would not, in the opinion of the planning authority materially affect the character of the protected structure, or any element thereof, and, as a result, require planning permission. Under the Act, protection extends to the entire structure including its interior and the land lying within its curtilage. It also extends to any other structures lying within the curtilage of the protected structure, to their interiors and to all fixtures and features that form part of the interior or exterior of any of these structures. Where specified in the Record of Protected Structures, protection may also extend to any other feature within the attendant grounds of the protected structure.

Nothing in this declaration exempts works that would not otherwise be exempt from a requirement for planning permission. Changes of use or intensification of the current use may require planning permission. If in doubt, the owner/occupier should consult the planning authority for further advice before commencing any works.

This Declaration may be referred to An Bord Pleanála for review within 4 weeks of its issue, upon payment of the requisite fee in accordance with Part IV, Section 57 (8) of the Planning & Development Act 2000 as amended.

Introduction:

The referrer has sought a section 57 declaration as per the Planning and Development Act 2000 (as amended) in respect of works to a protected structure at 29 Saint Laurence Street, Drogheda, Co. Louth

Figure 1: Front Façade – 29 St. Laurence Street, Drogheda

Protection Status: Regional

Planning History: None

Description of the Structure:

Attached two-bay three-storey over basement former house, built c. 1800, as a pair with the adjoining house to the east. Now in use as offices. Roof not visible, hidden by parapet, red brick corbelled chimneystack. Painted smooth rendered walling, painted stone coping to parapet. Square-headed window openings, painted smooth rendered patent reveals, painted stone sills, painted timber two-over-two sliding sash windows with horizontal glazing bars to ground floor, two-over-one sliding sash windows with vertical glazing bars to first floor, painted timber casement windows to second floor and basement. Round-headed door opening, painted stone Gibbsian surround, scroll brackets surmounted by broken bed pediment, plain-glazed fanlight, painted timber door with six raised-and-fielded panels; tooled limestone entrance platform approached by three tooled limestone steps. Basement area bounded by tooled limestone plinth wall surmounted by wrought-iron railings. Outbuildings to south. Street fronted.

The **NIAH** appraisal of this property states:

This modest town house is typical in design of late-eighteenth, early-nineteenth century town architecture. The retention of early fabric such as the sliding sash windows and the original Gibbsian door surround with broken bed pediment, enliven the façade. Situated on Laurence Street, the historical centre of the town, this house plays a positive role in the streetscape and adds to the architectural heritage of Drogheda.

Referral Question:

Would works materially affect the character of the protected structure and as a result, require planning permission?

This is a 5-storey building (including 2no. floors below ground Level) and the works as specified by the applicant are as follows:

- 5no. steel beams that have been installed in order to secure 5no. floors in the building. The existing timber joists in a number of larger rooms exceeded the TRADA tables and the result were springy and flexible. Finegan Jackson would not have been able to sign a Cert of Compliance (Building Regulations) for same. In order to remedy this, 5no. timber floors were cut, and 5no. steel universal beams were installed into the floor voids and the timber joists were bolted into this steel. This has removed the spring out of the floors and has now provided a more secure and stable structure. The existing timber joists were able to remain in place.
- The ceilings have been sealed up with plasterboard and the decorative cornices around the ceilings were reinstated by specialists. There is no sign of the steelwork from inside of the building as this is now covered up.

Legislative Provision:

Section 57(1) of the Planning and Development Act 2000 (as amended) states 'that notwithstanding Sections 4(1)(h) and any regulations made under Section 4(2), the carrying out of works to a protected structure, or proposed protected structure shall be exempted development only if those works would not materially affect the character of:

- a) the structure; or
- b) any element of the structure which contributes to its special architectural, historical, archaeological, artistic, cultural, scientific, social or technical interest.

Assessment:

The Planning Authority has considered the works to no. 29 Saint Laurence St, Drogheda which involve the works outlined above with '*Description of Proposed Works*'. The applicant has also submitted drawings and a description of the proposed alterations.

Having visited the property and reviewed the submitted plans, I am satisfied that the works carried out (installation of 5 no. steel beams) in the ceilings to secure the first-floor rooms is acceptable and has been carried out in a fashion that does not significantly or materially affect the character of the protected structure.

Any further documentation attached (maps, photographs, sketches, notes etc.)?

- Placement map

- Existing and proposed plans
- Description of works

Recommendation:

I hereby recommend that a Declaration of Exemption be issued for the development described above, for the reason(s) set out hereunder:

WHEREAS the question has arisen as to whether the works would or would not materially affect the character of protected structure or any element of the structure which contributes to its special architectural, historical, archaeological, artistic, cultural, scientific, social or technical interest at no. 29 Saint Laurence Street, Drogheda.

AND WHEREAS Nordview requested a declaration on the question from Louth County Council on the 12th January 2024.

AND WHEREAS Louth County Council in considering this referral, had regard particularly to –

- Section 2 of the Planning and Development Act 2000, as amended,
- Section 3 of the Planning and Development Act 2000, as amended,
- Section 4 (1)(h) of the Planning and Development Act 2000, as amended,
- Section 57 of the Planning and Development Act, 2000 as amended,
- The Architectural Heritage Protection Guidelines for Planning Authorities,
- The special interest pertaining to the protected structure in question and
- The nature and extent of works set out in the referral question.

AND WHEREAS Louth County Council has concluded that –

- The stated works to the protected structure comprise of “works” as defined in Section 2 of the Planning and Development Act 2000 (as amended);
- The stated works do not materially affect the character of the protected structure, or any element of the structure which contributes to its special architectural, historical, archaeological, artistic, cultural, scientific, social, or technical interest,
- The said development, therefore, comes within the scope of section 4(1)(h) and Section 57(1) of the Planning and Development Act 2000 (as amended).

NOW THEREFORE Louth County Council, in exercise of the powers conferred on it by Section 57 of the 2000 Act as amended, hereby decides that the works as specified by the applicant as they relate to Building Control Standards to the property at no. 29 Saint Laurence St, Drogheda, Co. Louth as detailed above, **constitutes development that is exempted development.**
